Major Donald E. Keyhoe
Director NICAP
1536 Connecticut Ave., N. W.
Washington 6, D. C.

Dear Don:

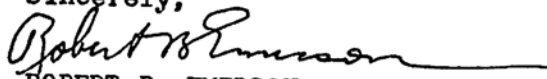

Your letter of 29 May was quite interesting. I agree that the two cases will make a valuable addition to the first issue of the magazine.

I was sorry to hear of the illness of both your wife and self. Hope that both of you are on the way to complete recovery by now. Have you heard from Major Fournet? I forwarded your letters to him, but have not heard since.

I am giving a lecture of some importance at Beaumont, Texas, on the 5th. Apparently the request was instigated by their mayor, who heard me deliver a two-hour lecture on the UFO during the Command & General Staff School at Fort Sill last summer. There were several hundred field grade officers present, and it seemed to make quite a hit.

Trust that the "I've Got a Secret" Show goes ahead with the plans for an UFO program. I should like to know the date scheduled, so that I can give it some publicity here. The statement you wished is below. Rest regards.

Sincerely,

ROBERT B. EMERSON
Colonel, USAR

I certify that I have seen the signed report dated May 18, 1957, describing the radar tracking of four UFO's at speeds up to 3600 mph by an airport control tower operator. I also certify that I have seen the report signed by a Naval Aviation officer dated May 16, 1957, describing the radar tracking of a UFO by airborne and Fleet operators which circled the Fleet in Korea registering at one time a speed of over 1000 mph.
